

Devoran Pre-school

Play House

Devoran Pre-school

- Devoran pre-school is a charity run by a volunteer committee.
- Rely on the fundraising each year for the extras to enhance the children's learning.
- Currently we have 45 pupils on roll with an expanding waiting list.
- Pupils range in age from 2 $\frac{1}{2}$ until they move to big school.

Enhance the outside area

- Since moving to their new "home", earlier this year, pre-school now provides a much better internal learning environment.
- We are now looking to enhance the learning environment outside to provide the same opportunities.
- This is why we are putting in this bid for a play house.

Benefits of a play house?

- 45 plus children per year will enjoy it
- Long term investment to last many years
- Hard wearing possibly bespoke to fit the playground area.
- We have ride-on's, water play etc. outside but this would tap into the children's "make believe".
- Increase their imaginative play

What would the children use it for?

We asked them.....

- "Dolls House"
- "I would put my Barbies and magic princesses that change colour in."
- "Three little pigs could live in it."
- "It could be a shop selling gloves....and hats."
- "A train station choo choo"

What type of play house?

- Typically a quality well made playhouse is between £300-£400
- So we are asking for the maximum £250 available
- Any extra required will be provided by our own fundraising
